

March 30/22

Hi everyone!

Thanks for your prayers for Ukraine at this time!

One of the ladies who we meet with in our Zoom class on Sunday mornings, said that Russia was bringing in mercenaries from Hezbollah who are trained in combat duty within the streets. The first group was to arrive yesterday in Belarus.

There is denial that this is happening, but after seeing Russia's promise to back off in the shelling Kiev and Chernihiv, but then continue to bombard these two cities after giving their word. The word out of Russia appears to have very little value in regards to truth!

Continue to pray for Ukraine, their President, the army and the people of Ukraine. It is truly a mismatch in regards to size and resources and yet Ukraine continues to show amazing strength in their ability to do battle. I know that our friends are worried for their country if these experienced mercenaries are arriving in Belarus to fight against Ukraine.

Continue to pray for peace talks that will bear fruit and that both sides can come to an agreement.

Thank you for your faithfulness to pray!

With love and blessings,  
Scott & Shannon
